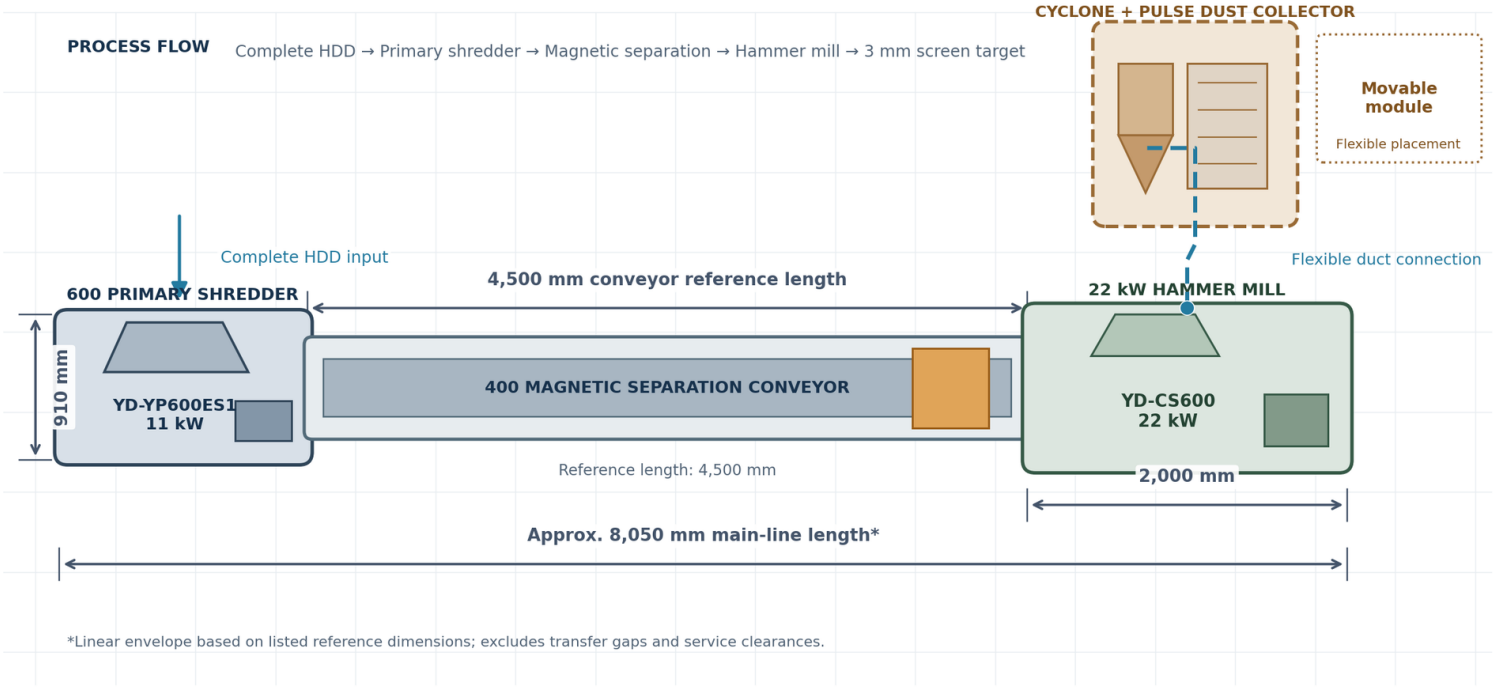
YUEDU Shredders
Shredding Equipment and Shredding Systems

HDD DESTRUCTION LINE – TOP VIEW

Conceptual equipment arrangement | Process flow: primary shredding → magnetic separation → fine shredding



CUSTOMIZABLE CONVEYOR LENGTH

The 4,500 mm length shown is a reference. The conveyor can be shortened to suit your available site space.
The overall line length will be reduced accordingly. Final conveyor length to be confirmed with the customer.

Final site footprint, conveyor elevation, transfer chutes, operator access and maintenance clearances must be confirmed with the manufacturer before installation.
