YUEDU YD-428130M2 Conveyor-Fed Shredder - Product Description:

The conveyor-fed opening is practical and easy to use, making daily operation smoother and more efficient.

An optional discharge conveyor (see attachment) facilitates the removal, baling, and transportation of shredded material.

The machine is equipped with a lockable operating system to prevent unauthorized use. Its comprehensive safety features stop the machine when the hopper or front door is opened, stop operation when the feed height is excessive, and automatically reverse in

the event of an overload. The integrated cutter lubrication system effectively extends service life, while thermal overload protection supports a wider range of shredding applications. Multiple shredding modes are available for materials including optical discs, floppy disks, documents with paper clips, magnetic cards, paintings and calligraphy, and confidential records. Conveyor feeding makes it easier and safer to process hard items, crumpled paper, and cards. The shredded-paper compaction function reduces the need for frequent waste removal and improves operating efficiency. Castors and adjustable feet allow convenient movement and stable positioning. The machine is suitable for large offices, printing plants, government printing rooms, public-security authorities, archives, computer rooms, and centralized document-destruction facilities.

YD-428130M2 Shredder Functions:

Automatic reverse and stop for excessive feed or overload / Automatic power cut-off when the waste bin is full / Power cut-off when the lower cabinet door is opened / Power cut-off when the upper hopper is opened / Forward shredding / Stop / Reverse / Standby LED status indicators / Main power switch / Lockable main power switch / Emergency stop switch / Cutter lubrication system / Lockable mobile castors

Technical Specifications:

Shredding Unit	Baling Unit (optional; not included with the standard machine)
Shred size: 2 x 15 mm particles	Power supply: 380 V
Sheet capacity: 40-60 sheets per pass	Compression force: 80 kN
Power: 4 kW	Bale output: 5-8 bales/hour
Continuous operation: 24 hours	Bale weight: 50-70 kg
Feed width: up to 400 mm	Bale dimensions: 565 x 480 x 200-700 mm
Shredding speed: 6 m/min	
Voltage: 380 V, 50 Hz	
Waste-bin capacity: 300 L

Net weight: 600 kg

Machine dimensions: 1290 x 1450 x 1660 mm

Motor power: 3.7 kW, 10 A

Feed-opening dimensions: 320 x 490 mm

Machine dimensions: 2390 x 685 x 970 mm

Net weight: approx. 600 kg

Note: This machine is commonly used in corporate document-destruction centers for centralized document disposal. On the standard model, shredded material falls into the waste bin. The standard configuration does not include a discharge conveyor or baler. Optional components can be supplied according to the user's requirements and are not included in the standard factory configuration.

Typical optional requirements include:

1. Configuration for a 220 V office power supply;
2. An infeed conveyor or discharge conveyor;
3. An automatic baler for discharged material.

About YUEDE Shredders

Shanghai YUEDU Technology Co., Ltd. is a **Shanghai-certified high-tech enterprise** specializing in the development and manufacturing of **shredding and destruction equipment**. We serve a wide range of sectors including **government agencies, financial institutions, military departments, enterprises, and recycling industries**.

Our offerings include **office and industrial-grade paper shredders, hard drive destroyers, plastic crushing systems, and fully customized destruction center solutions**. From design to delivery, we help clients achieve efficient, secure, and compliant material destruction.

Our Mission

We are dedicated to the shredding and destruction industry, continuously solving diverse material shredding and disposal challenges for our clients around the world.
