

The PC-B Series heavy-duty plastic crusher is a powerful, versatile machine designed to process a wide range of rigid and flexible plastics. It reduces plastic blocks, strips, sprues, and runners into granules, enabling rapid recycling of rejected parts, production scrap, and runner waste while improving material utilization. It can be installed beside processing equipment for inline crushing or used as a centralized offline crusher for a production area.

Key Features

- High-chromium tool-steel blades with adjustable clearance for long service life.
- Large flywheel delivers high torque and high throughput.
- Heavy-duty bearings, dust protection, and sound-insulating panels minimize vibration and noise.
- Interlocked safety protection helps safeguard both the operator and the machine.
- Staggered cutting reduces dust generation and energy consumption.
- Motor overload protection with automatic trip.
- Swivel casters allow easy positioning.
- Detachable modular design simplifies maintenance and servicing.

About YUEDE Shredders

Shanghai YUEDU Technology Co., Ltd. is a **Shanghai-certified high-tech enterprise** specializing in the development and manufacturing of **shredding and destruction equipment**. We serve a wide range of sectors including **government agencies, financial institutions, military departments, enterprises, and recycling industries**.

Our offerings include **office and industrial-grade paper shredders, hard drive destroyers, plastic crushing systems, and fully customized destruction center solutions**. From design to delivery, we help clients achieve efficient, secure, and compliant material destruction.

Our Mission

We are dedicated to the shredding and destruction industry, continuously solving diverse material shredding and disposal challenges for our clients around the world.
